

Committees

Educational program advisory ad hoc committees may be organized to make recommendations to the school staff and board. Such committees usually include representative citizens from the district selected by the board or school staff from lists of volunteers and staff representatives who act as consultants and research personnel.

Procedures for the conduct of the committee meetings and time schedules and other matters relating to the process by which the committee will work towards the achievement of its assignment are usually determined at the organization meeting of the committee.

Advisory committees in the state vocational approved programs are mandatory.

Board members may serve on district or building committees. When serving on committees, board members act as a liaison sharing information on behalf of the committee to the board and vice versa.

In no case will a board member serving on said committee either suggest action or make any representation which may have the effect of committing the full board, either expressly or implied, to any line of action.

Committees of the board may be created by a majority of the board. No more than two board members will serve on any board appointed committee. The board president will appoint board members to serve on such committees, the purpose and terms of which will be determined by a majority vote of the board.
