

### **SNOW CONDITIONS AND CLOSURES:**

School schedules and bus transportation may change on short notice, as winter and snow conditions begin to impact our area.

Driving a school bus in some areas may not be possible during severe weather. If snow routes are in effect, students must catch their bus at an **alternate stop**. Please review the weather communication to determine if snow routes are in effect. You will find this on the Lynden School website. Depending on where you live, you may or may not have a snow route. Transportation will make individual arrangements for special education buses which do not follow the snow routes.

It is the responsibility of families to know if they live on a snow route, and please make arrangements to ensure the safety of your child at snow route stops.

### **IF SCHOOL IS CLOSED:**

No "Out of District" Transportation, including district athletic, field trips, and McKinney Vento.

### **IF SCHOOL IS DELAYED:**

School is delayed when the weather is bad but is forecasted to improve, and warm after sunrise. This would allow our buses to operate in better conditions with less traffic.

No "Out of District" Transportation, (McKinney Vento). Administrators will decide if other activities are canceled.

AM Pre-School is canceled. Extended day is canceled.
