Card Custodian

The card custodian is the individual who will be responsible for the day-to-day control of the card and is responsible for maintaining and preparing the proper documentation for the reconciliation of the monthly statements by the cardholder.

Card User

The card user is the individual that actually incurs charges to the card. In some occasions one individual could be the cardholder, card custodian and the card user. In the event that the user is not the named card holder, a Credit Card Authorization Form must be submitted to the *Cardholder*.

Fuel Cards may be checked out from the card custodian for authorized usage. Credit cards are issued through the business office, if the user is not the named card holder an authorization form must be submitted to the cardholder. A cardholder may authorize the card custodian to make purchases on behalf of the building/department up to a specified dollar amount.

An employee wishing to use/checkout a card must follow these procedures;

1. Sign a credit/fuel card agreement. This agreement must be kept on file with the card custodian. There must be an agreement on file for every employee that has been authorized to use the card.
2. Fuel Cards get checked out by the cardholder or card custodian and the employee must sign the card out on the fuel card "sign out sheet".
