Start time: 06:35 PM

- Thanks to a grant through the Pacific Science Center, all three elementary schools experienced an exciting mobile field trip-brought directly to our campuses by Science on Wheels! Students were immersed in the "Blood and Guts" theme, learning how organ systems work together. Classes also enjoyed a hands-on classroom workshop and visited the library where they interacted with pop-up science exhibits. These three experiences all worked together to spark curiosity and deepen understanding of how the human body works together as a system.
