

## THE ROAD TO QMLATIV

*"People underestimate their capacity for change.*

*There is never a right time to do a difficult thing." - John Porter*

Happy New Year! We are just 3 months away from our official Qmlativ go-live date! Be sure to check out our Q Migration page on the district website for a live countdown as well as for tip sheets, upcoming training dates, and videos.

We have strategically mapped out trainings based on user group usage, those who spend the most time in Skyward and utilize multiple modules within the software. Classes will continue to be scheduled up to migration and then through the remainder of the school year, so if you haven't received training yet - it is coming soon!

The positive energy and dedication during our Qmlativ trainings has been impressive. The willingness to dig in, learn, and adapt is setting us up for a successful transition. The hard work your doing now will pay off in dividends post-migration. Thank you for your commitment to and support of this important work!

## QUICK NOTES

Qmlativ offers mobile apps for employees, parents and teachers.

Qmlativ will go live in April 2026. Data clean-up continues.

Teachers can use the mobile app to take attendance and manage gradebooks.

Teacher Leaders have been identified and have begun their training journey to bring support to the buildings.

The Qmlativ TLA is currently a test environment. Any customizations saved will not carry over to the live version of Qmlativ in April.
